STC TV

The logo for STC TV is displayed on a purple rectangular background. The letters 'stc' are in a white, lowercase, sans-serif font. The letter 't' is stylized with two small white squares positioned above its vertical stem. To the right of 'stc', the letters 'tv' are in a smaller, lowercase, sans-serif font, colored orange.

INTRODUCTION

- In this analysis we addressed :
 - Study user behavior
 - Building a model to predict the number of expected views
 - Building a model to provide recommendations

STUDY USER BEHAVIOR

We studied the desires of users in terms of classification of programs: whether they like to watch a movie or a series in high quality, or are they satisfied with standard quality

	program_class	No of Users who Watched	No of watches	Total watch time in heures
0	SERIES/EPISODES	3901	560174	255097.787500
1	MOVIE	11355	488401	103444.145556

	hd	program_class	No of Users who Watched	No of watches	Total watch time in heures
0	0	SERIES/EPISODES	3282	486884	229776.593333
1	1	MOVIE	10880	331746	64856.366111
2	0	MOVIE	6093	156655	38587.779444
3	1	SERIES/EPISODES	2625	73290	25321.194167

STUDY USER BEHAVIOR

top 10 programs in total watch time in heures

Total duration spent by program_class

STUDY USER BEHAVIOR

No of Users who Watched Vs Program quality flag

BUILDING A MODEL TO PREDICT THE NUMBER OF EXPECTED VIEWS

- We worked on forecasts for viewing hours

Total_watch_time_in_houres	
date_	
2018-01-01	1123.551944
2018-01-02	1000.129722
2018-01-03	881.924444
2018-01-04	782.669444
2018-01-05	1051.939444

BUILDING A MODEL TO PREDICT THE NUMBER OF EXPECTED VIEWS

- using the previous dataset build a prediction model to predict the expected watch time for the next two months

BUILDING A MODEL TO PREDICT THE NUMBER OF EXPECTED VIEWS

- show the Model out come against the actual data

BUILDING A MODEL TO PREDICT THE NUMBER OF EXPECTED VIEWS

- show forecasts

BUILDING A MODEL TO PROVIDE RECOMMENDATIONS

- we worked on task three to build a recommendation engine for our platform to Recommend movies to users that they might be interested in
- show the recommendations (top 5)

Recommendations for Moana:

- 1: Trolls, with distance of 0.42764217010640215:
- 2: Surf's Up : WaveMania, with distance of 0.4705763355181768:
- 3: The Mermaid Princess, with distance of 0.5066377099343184:
- 4: The Boss Baby, with distance of 0.551442834662541:
- 5: The Jetsons & WWE: Robo-WrestleMania!, with distance of 0.5610577907608365:

RESULTS

- The drama has the highest viewership and is clearly a favorite among customers
- Viewing rates rise significantly during the month of February
- I suggest creating offers that encourage customers to watch starting in April
- Increasing dramatic content may contribute to attracting new viewers
- Most people like to watch movies and series in high quality
- Movie viewers are the most, increasing the number of movies may attract more customers

The background features a gradient from deep purple on the left to bright blue on the right. Several concentric circles are centered on the page, with some being solid and others being dashed or composed of segments. A thick white arc is visible in the upper right quadrant, and another thick white arc is in the lower left quadrant. Small white dots are scattered throughout the design.

THANK YOU
